City of Santa Barbara 2011 Edition

MarBorg Industries is a Santa Barbara County Certified Green Business

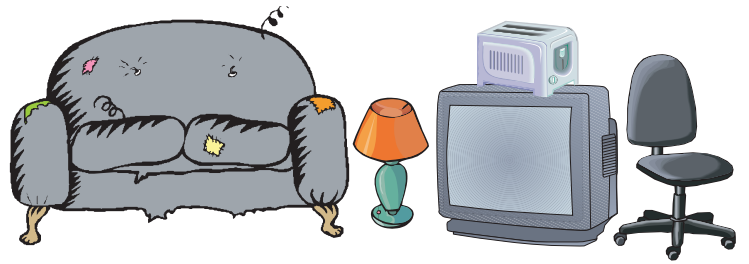

In October, MarBorg Industries was certified as a Green Business through the **Green Business Program of Santa Barbara County**. Earning this certification showcases the commitment MarBorg has made to go above and beyond regulatory environmental requirements. For decades MarBorg has provided outstanding recycling services to Santa Barbara County and is dedicated to furthering their sustainable commitment by developing policies and programs to reduce their corporate operational environmental footprint. Throughout the certification process, MarBorg has developed and implemented an *Environmental Purchasing plan*, an *Integrated Pest Management Plan*, and a *Green Cleaning policy*. These plans and policies assist with reducing operational costs and reducing the negative environment impacts associated with business operations and services.

In addition to the Green Business Program certification, MarBorg Industries is pursuing certification through the LEED for *Existing Buildings: Operations & Maintenance (LEED EB:O&M)* rating system. LEED EB: O&M is a green building rating system developed by the U.S. Green Building Council and is a third party verification process that evaluates the operations and maintenance practices of existing buildings. Certification as a LEED building will distinguish MarBorg Industries as a leader in sustainability and will provide measurable strategies and calculations that meet and exceed recognized sustainability benchmarks.

ANNUAL

CLEAN-UP DAY

All residential* customers in the City of Santa Barbara are eligible for 1 FREE clean up every calendar year. You may call in once per year when it is convenient for you to have your items removed. MarBorg performs all Annual Clean Ups on WEDNESDAYS.

- All items must be brought to the curbside by 6 am.
- All items must be generated from the address we are collecting from.
- Loose items must be bagged, boxed or bundled.
- We must be notified of any items that exceed 5 feet in length or 60 lbs so we can send the correct vehicle. (There are no weight or size limits on items).
- Green waste must be bundled. No waste from professional tree trimming.
- Construction and remodel material is generally not accepted. (We will pick up doors, windows, lumber and toilets).
- No Hazardous waste (Tires accepted).
- CITY ONLY: Free electronic and refrigerator pick up.

** Annual clean up is not available for apartments or condos because they do not pay for individual service.*

Please remember that Antifreeze, Batteries, Oil, Paint (ABOP) and other Household Hazardous Waste (HHW) materials are NOT allowed in the trash.

MarBorg Industries' New Santa Barbara Based Compressed Natural Gas (CNG) Vehicle Fueling Facility

MarBorg Industries opened a new Compressed Natural Gas (CNG) fueling station for its collection vehicle fleet. We are excited to now be fueling our collection vehicles with clean compressed natural gas (CNG), at a new state-of-the-art facility in downtown Santa Barbara.

Collection vehicles are parked at the end of the day and connected to individual fueling stations, where they are fueled overnight and ready for a full day of service the following day.
